

# Lindwash by Lindhaus Gives Lotus Italy Racing Team High Performance

The Lotus Italy Racing Team spent years trying to find a way to keep its garage and service area floor clean. It's brilliant white ceramic tiles were often smeared by oil and grease stains. It was a pain-staking task to maintain the shop area in the pristine condition appropriate for the high-tech, high performance equipment used by the Lotus team

Finally, they found a solution in their own back yard. The Lindwash LW38Pro scrubber drier was what they needed. Made by Lindhaus in Padova, Italy, the Lindwash models offer a compact, low profile, easy to handle scrubber/drier that is more effective on dirt, grease and oil than any comparable model. Padova is less than two hours west of the Lotus Italy Racing Teams facility in Bergamo, Italy.

Stefano D'Aste, a champion race car driver and owner of Lotus Italy, was amazed to see the simple and efficient way the LW38Pro restored the original shine and luster to the ceramic tiles. Lindhaus owner, Michele Massaro, also a race care driver, provided an effective demonstration to remove both oil and grease from the floor tiles.

*Lotus Italy Racing Team is now equipped with Lindhaus*

The Lotus Italy Racing Team is now equipped with Lindhaus LW38 scrubber/driers, making the annoying and ineffective mop and bucket a distant memory. Finally, the Lotus Team's high-tech facility has a high-tech solution to clean and sanitize it's service area.

For additional information on the Lindhaus Lindwash 38Pro, or other Lindhaus products, please contact Lindhaus USA at 800-498-7526.
